

MAGNETIC FORCE FLASHLIGHTS: PERFORMANCE COMPARISON

NightStar®

Forever Flashlight

Number of Shakes to Recharge

90

120

Effective Illumination Time

20 minutes

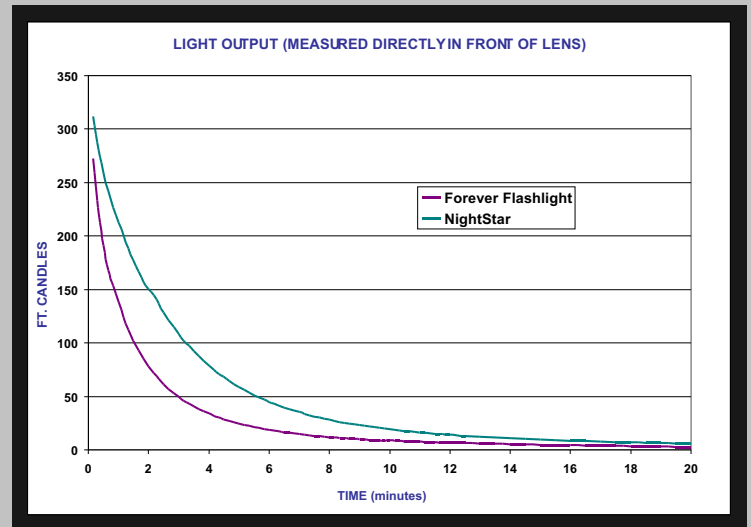

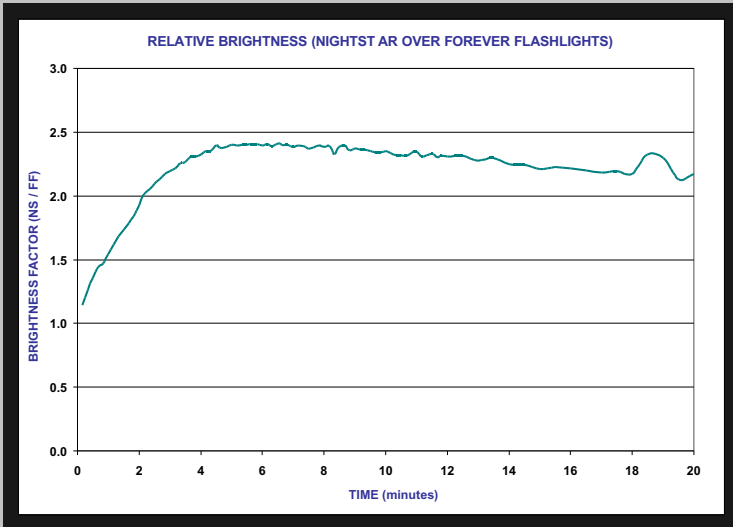

5 minutes

Recoil System

Magnetic Levitation
 [Efficient and Quite.
 No parts to wear out]

Springs/Rubber Bumpers
 [Inefficient and Noisy.
 Bumpers will fatigue over time]

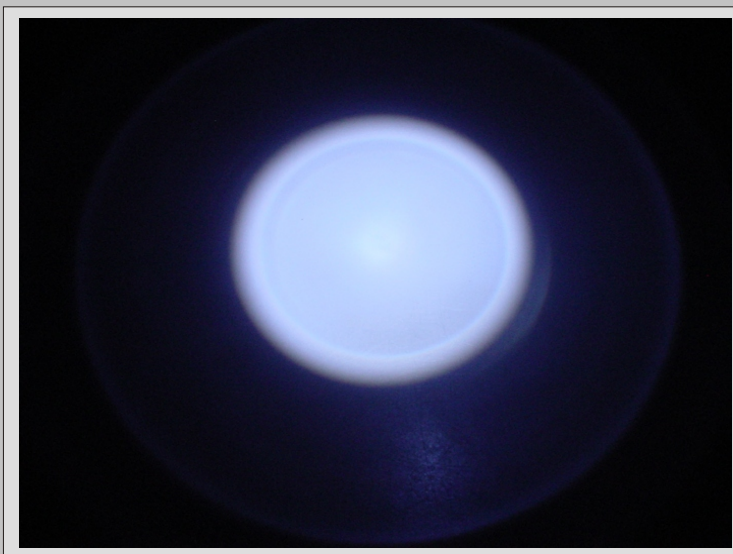

Illumination

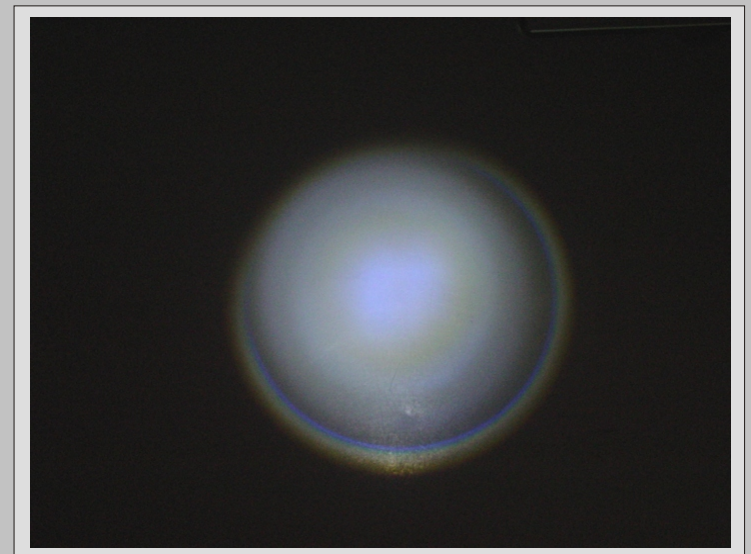

Initially, NightStar is 1.5 times brighter than the Forever Flashlight. After 3 minutes NightStar is over 2 times brighter.

With both lights fully charged, the total light output from NightStar is more than twice the light output of the Forever Flashlight. (The total light output from each light is equal to the area under each curve).

Beam Quality

NightStar's Beam @ 2-ft. After 2 minutes

Forever Flashlight's Beam @ 2-ft. after 2 minutes
